

CEKA 2017 IN MEDIA

The international course *Characterization and Engineering of Karst Aquifers* held in June 2017 and following activities had received a proper attention in media of Bosnia and Herzegovina and Montenegro. There were 3 television reports, 3 articles in press (Montenegro national daily newspaper), and 4 on-line articles.

TV coverage included interviews with Prof. Stevanović and few participants of the course.

Newspaper of Montenegro reported on visit of students from Northern Arizona University, Flagstaff, and USA and Serbian experts to the Bolje sestre source - Regional Waterworks for the Montenegrin Coast.
